Our long-term approach allows us to build strong market relationships in France, gain unique knowledge and understanding of businesses, and provide surety and guarantee products and services that add value, helping clients achieve their business goals.

As a mutual company, we focus not on shareholders and stock markets, but on our clients and partners. We take time to get to know our clients and what they need from their surety.

Solutions for your most complex surety risks

With business today moving fast, bonding requirements are often time-sensitive and vital to a company's success. Our approach is to be innovative and flexible, focusing on providing outstanding service to our clients. This is why some of our clients have been with us for more than 20 years. We do the right thing.

Surety bonds are issued in place of the letters of credit, thus freeing up any cash that was being held by your financial institution as security.

Our experienced teams are resourceful, responsive, and empowered to make decisions quickly. You'll benefit from our technical underwriting capabilities, the strength of our relationships with our broker partners, and our unique approach to claims service.
