

Win in the construction marketplace

Surety producers and their contractors select Liberty Mutual Surety as their surety of choice due to our financial strength, stability, powerful resources, and extensive knowledge of the construction industry. Whether your customer is a small to mid-size contractor, or a large multinational contractor with complex bond needs, we can provide customized bonding solutions to meet their needs.

Surety bonds and guarantees that power global progress.

Visit libertymutualsurety.com for more information, or contact your underwriter to get started.

Follow us on LinkedIn and be in the know on emerging trends, legislative updates, and announcements.

Contract Bond Solutions

We underwrite all types and sizes of contractors, including public and private local, regional, national, and multinational contractors. We're proud to count the following types of contractors among our customers:

- General builders
- Construction managers
- Design/builders
- Heavy equipment contractors
- Homebuilders
- Subcontractors
- Specialty contractors

Our underwriters can help your contractors obtain:

- Bid bonds
- Payment bonds
- Performance bonds
- Supply bonds
- Maintenance bonds.

Strategic account services

We offer multiple resources to our accounts, including engineering and accounting consultation, thought leadership white papers, peer benchmarking analysis, and customized macroeconomic reporting, designed to share industry trends and best practices. Whether your contractor's goal is to grow the business, enhance operating systems, or compare performance against similar-sized contractors, our complimentary support services can facilitate your contractor's success in the market.

Superior claims handling

Our underwriting culture is strengthened by the close collaboration between our underwriting, claims, and dedicated legal teams, which work together to address challenges if they arise, and recommend innovative solutions. We pride ourselves on our best-in-class claims handling and commitment to resolving claims efficiently and effectively.

Local connections, global reach

Our underwriters are located in more than 40 field offices throughout the United States to provide the necessary local market knowledge. Additionally, our Global Risks division specializes in international and reverse flow operations. Through affiliated companies and fronting relationships, we have facilities in almost 20 countries worldwide, making us a leading provider of foreign bonds for U.S. companies, and domestic bonds for foreign companies operating in the United States.
